Tailor-made course

The Dutch Dairy Value Chain

Today's dairy business is an innovative market with many opportunities and challenges. Keeping dairy in the Netherlands is a challenging one. This is why the Dutch dairy chain is one of the leaders in new developments, especially around circular and sustainable farming including the use of high tech technology.

For professionals in the dairy business it is important to stay in contact with these new developments and insights. Do you want to get these latest insights and innovative ideas for your company?

Together we set up a tailor-made programme meeting your learning goals to strengthen your organisation in the dairy industry.

Target audience

The aim of this programme is to increase the knowledge of professionals who are working, from policy level to practical level and who want to acquire the latest insights on the Dairy Chain. As every training is tailor-made your specific training goals can be met and will be thoughtfully designed in a unique programme for you.

Course deliverables

Depending on the training request specific knowledge and expertise will be shared to meet your learning goals. You will be able to apply the new insights and ideas to your situation. The common 'red thread' in the trainings offered is to make sure you will be able to apply the new insights and ideas to your own situation.

Organisation: Wageningen Academy and Dairy Campus

**Location: Wageningen Campus and Dairy Campus
Leeuwarden**

Our approach

During the training a variety of subjects can be discussed related to the Dairy Chain:

- The Dairy cow
- Farm management
- Dairy processing
- Consumption of dairy products

See the backside for more suggestions.

We offer an interactive programme by organising classroom sessions alternated with farm visits and discuss specific cases related to a subject. Each topic will be introduced by an expert and during the programme there is plenty of time for interaction with these experts.

Prerequisites

We can accept the following groups:

- Ten or more persons
- Full proficiency in English or Dutch

What's included

- Programme development and execution
- Learning materials
- Basic catering (drinks and lunch)
- Certificate of attendance

Optional

- Additional excursions
